FEATURED SETS

INTRODUCTION

RUMEX International Co. is one of the leading manufacturers of high-precision ophthalmic instruments for hand-held surgery. Since 1994 we've been developing innovative top quality products to serve the needs of eye surgeons all over the world.

The distinguished ergonomic design of our instruments, and high quality materials they are composed of, will ensure that every surgical manipulation is gentle and precise.

Sets are advisory, if your surgical technique or professional preference requires a customized set you can easily modify it by picking necessary instruments from a wide range of RUMEX products.

RUMEX International Co. team is always ready to support and assist our clients. For your convenience we combined most popular products into special featured sets for all types of ophthalmic surgeries:

CATARACT
REFRACTIVE
CORNEAL
GLAUCOMA
PTERYGIUM
LACRIMAL
OCULOPLASTIC
LID & MUSCLE
VITREORETINAL

valid for Reusable Instruments, Disposable Knives, SS Disposable Instruments, and Silicone Oil
not valid for some Disposable Products - please check the General Catalog or Website

Complete any set with a sterilization tray.

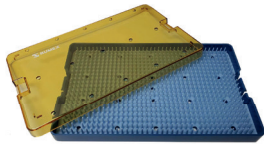

RUMEX offers a variety of plastic and aluminium trays of different sizes and configurations.

Plastic Trays

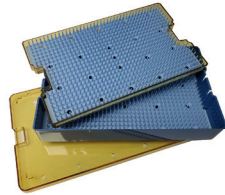

RUMEX plastic trays are molded from General Electric's ULTEM® resin, using mold flow analysis to guarantee product strength, structural integrity, and extended life cycle.

Aluminium Trays

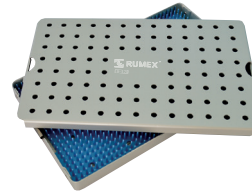

RUMEX aluminium trays are manufactured from an anodized aluminium alloy to prevent corrosion, ensure fast drying and long-term use. Lightweight* for easy transportation and handling.
