

## DISPOSABLE DIAMOND DUSTED ILM ELEVATOR\*

A challenging maneuver associated with the removal of the internal limiting membrane (ILM) is to pinch and grab it prior to peeling.

RUMEX introduced a **NEW DISPOSABLE DIAMOND DUSTED ILM ELEVATOR** in 23 and 25 Ga, which is specifically designed to consistently create a precise edge to facilitate the ILM removal with forceps.

12-7523, 23 Ga  
12-7525, 25 Ga

STERILE

SHELF LIFE  
3 YEARS

**RETRACTABLE VERSION** helps to adjust the length of the tip and provides an easy insertion through the trocar cannula

**SOFT SILICONE TIP** safe for retinal surface  
**DIAMOND DUSTED** tip finish provides an extreme grip
